Re: Human Rights Risk Assessment, Palm Bay Plantation

Dear Mr. Barblett,

Thank you for your September 19 response to our inquiry.

Thank you as well for your kind invitation to visit Palm Bay yet again. I accept the invitation, but will have to schedule it with more advance notice. As for your offer to put me in contact directly with CSR21 representatives, I would welcome that. We follow their work, but, as you know, much of it focuses on issues not addressed in the Human Rights Risk Assessment. I would also be pleased to meet with them, and you, when I am next in London.

We must finalize this draft of the Human Rights Risk Assessment and so do need to receive by October 7, 2016 the previously requested bases for your claims that any facts stated in it are incorrect. The Risk Assessment is designed to addresses big picture items involving basic plantation operations well-known to your managers and easy to verify. Any information obtained by October 7th will be considered in the final, public version of the Risk Assessment.

Our inquiry was directed to Pak Sin and Pak Lim, whom I have copied on this correspondence. Since you responded on their behalf, we will consider it a joint response from EPO and KLK. Please let me know if EPO or KLK believes otherwise.

Kind regards,

Mark Wielga

Director, Nomogaia
